DESIGN DOCTOR

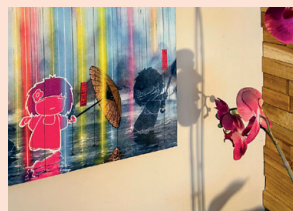

*Expert Advice,
Clarity &
Direction*

Sometimes all you need is the right expert guidance

My Design Doctor service is a comprehensive consultation designed to identify exactly what changes will have the greatest impact on your home or workplace.

Whether you're feeling stuck, planning a refresh, or preparing for a larger project in the future, I will help you create a clear and achievable plan.

Together, we'll assess your space, discuss your goals, lifestyle, budget, and aspirations, and identify practical solutions that will improve how your environment looks, feels, and functions.

You may simply need colour recommendations, furniture layouts, lighting advice, storage solutions, styling guidance, or help sourcing key pieces.

Alternatively, this consultation can form the foundation for a larger design project.

Ideal for:

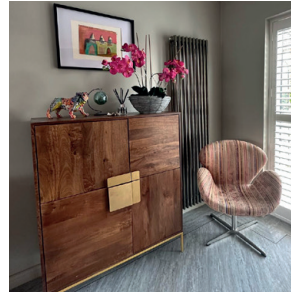

- Room refreshes
- Colour and material guidance
- Furniture and layout advice
- Home office design
- Styling and accessorising
- Property preparation for sale
- Clients seeking professional direction before investing further

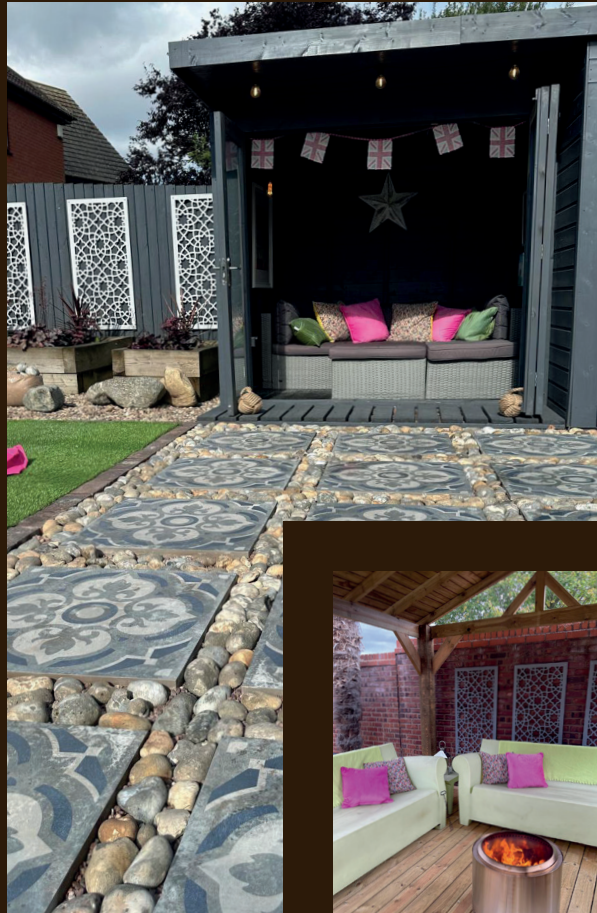

Outcome:

A clear plan of action tailored to your needs, budget and lifestyle.

Providing you with a report and detailed recommendations with a pathway and indicative pricing for the transformation of your home.

*Let me help you make
your interior work
beautifully for you*
